DETAILED ACTION

Election/Restrictions

- 1. Applicant's election without traverse of Group I and species disclosed in claim 27, in the reply filed on January 9, 2006 is acknowledged. Applicants have indicated that claims 12, 13, 15, 17-33 read on the elected invention.
- 2. The search results indicate that the elected species of claim 27 are novel, the search is now extended to species A-7 of claim 26.

Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 4. Claims 12, 13, 15, 17-26 and 28-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12, line 13, the connector "or" is missing after the term "Se".

Claim 19, the term "and" is missing in the front of the term "oxygen".

Claim 20, (i) the complexes of line 3 lack antecedences in that component "D" and dative bond "→" between "B" and "D" of the generic structure of claim 12 are required, however, they are not existed in the species of the metal complexes of the instant claim, and (ii) the term "phosphorous atom-containing moiety" in the last line does not have antecedence because component "F" is equivalent to "D" of claim 12 and D can not be the "phosphorous atom-containing moiety" of claim 20.

Art Unit: 1713

Claims 21-23, the complexes of the instant claims lack antecedence in that component "D" and dative bond "→" between "B" and "D" of the generic structure of claim 12 are required, however, they are not existed in the species of the metal complexes of the instant claim.

Claims 24 and 25, the tridentate ligands lack antecedences those listed structures represent neutral compounds rather than ligands carrying negative charges.

Claims 26 and 27, the metal complexes of the instant claims do not have antecedences in that component "D" and dative bond "→" between "B" and "D" of the generic structure of claim 12 is required, however, such component is not existed in the species of the metal complexes of the instant claims.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- 6. Claim 26 is rejected under 35 U.S.C. 102(a) as being anticipated by Ittel et al. (US 6,531,424).

The titanium metal complex of Ittel's Example 8 encompasses the metal complex A-7 of the instant claims.

Art Unit: 1713

Allowable Subject Matter

7. Claim 26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Ittel et al. (US 6,531,424) teaches a transition metal complex of formula (IV) (col. 2) similar to those of the instant claim 27; however, Ittel does not teach or reasonably suggest group "Z" bridging "N" and "Q" to be the phenylene bridge as those in the complex structures of the instant claims. Therefore, transition metal complexes of claim 27 are deemed to be novel.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caixia Lu whose telephone number is (571) 272-1106. The examiner can normally be reached from 9:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful and the matter is urgent, the examiner's supervisor, David Wu, can be reached at (571) 272-1114. The fax numbers for the organization where this application or proceeding is assigned is (571) 273-8300.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (571) 272-1700.
